

# THERMOFLOW

Undersink model  
Untertischgerät  
0MPa (0bar)  
Ut10

## THERMOFLOW

Untertischgerät  
Ut10

- + Steckerfertig
- + Aufheizzeit von 10°C auf 65°C in 20 min
- + Temperaturbereich 35–75°C
- + Einfache Installation

Waschtisch

Küche

**Kleinspeicher 10L**

Drucklos - 0MPa (0bar)

### Untertischgerät – Ut 10

Der Speicher benötigt, um eventuellen Druck abzubauen, eine Niederdruckarmatur. Standardarmaturen sind nicht mit dem Produkt kompatibel.

## THERMOFLOW

Undersink model  
Ut10

- + Ready to plug in
- + Heating time from 10°C to 65°C: 20 min
- + Temperature range 35– 75°C
- + Simple installation

Washbasin

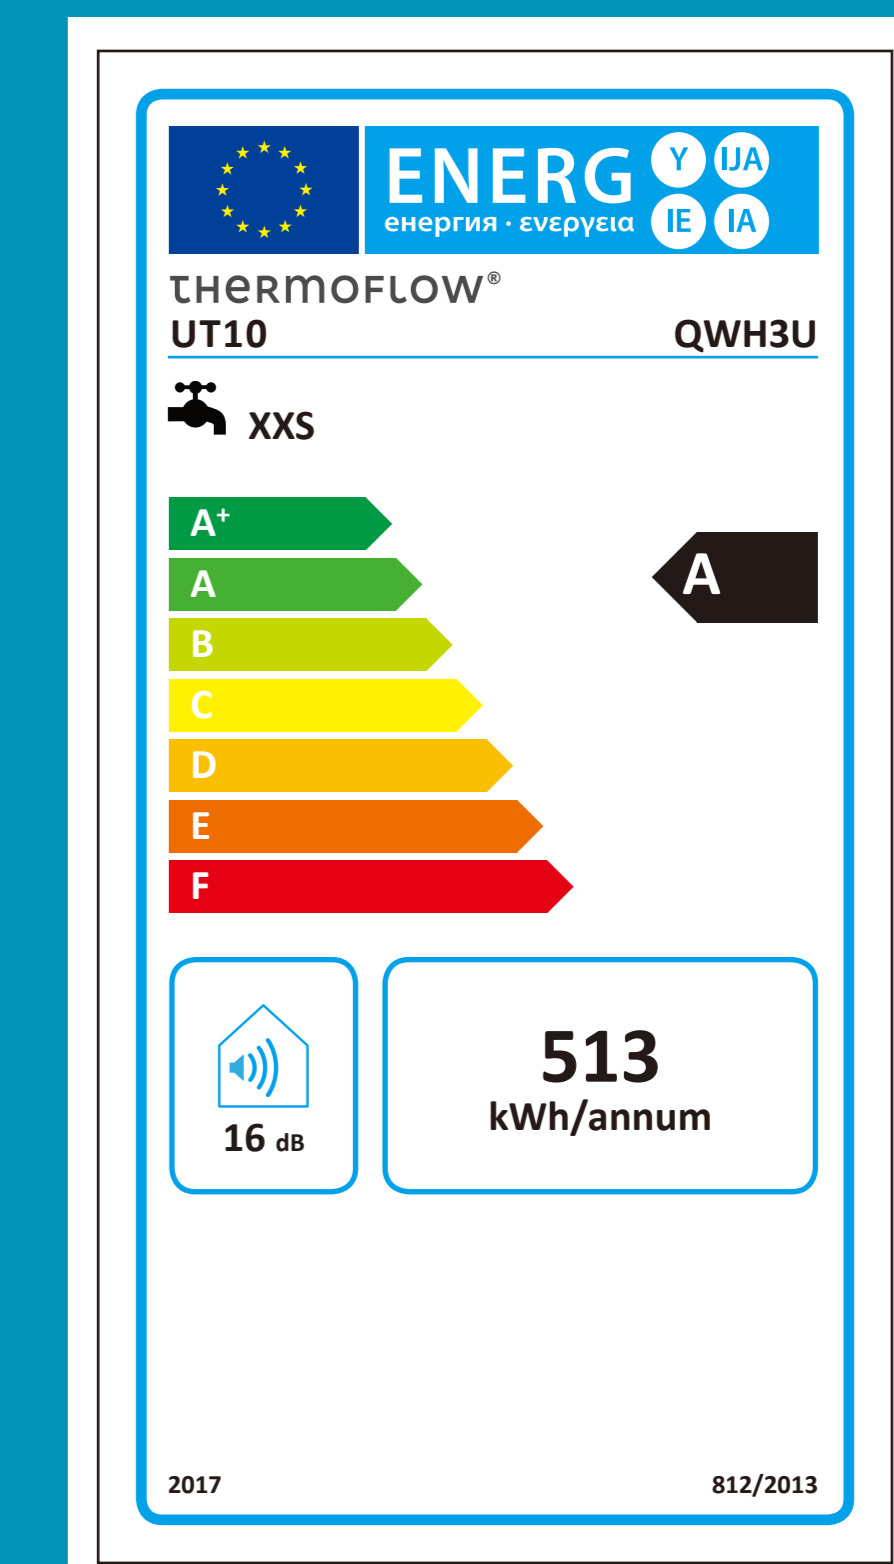

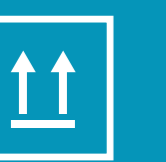

Kitchen

**Water heater 10L**

Pressureless - 0MPa (0bar)

### Undersink model – Ut 10

This boiler needs a special low pressure tap. This tap enables the boiler to release any pressure through the spout. Normal taps can not be combined with this boiler.
